Dear Shri Mangu Singh ji,

Subject: Interchange facility at Punjabi Bagh Metro Station.

Punjabi Bagh Chowk is the most busy intersection at the Ring Road Inderlok-Mudka Metro (Green Line) which goes along with Rohtak Road. Though the line crosses each other yet there is no facility of interchange as there is no Metro Station at this place on the green line. In this modern age of technology everything is possible.

Kindly examine the feasibility again to have a Metro Station at this place at the higher altitude in the Mudka line and it can be connected to Punjabi Bagh Chowk Metro Station by a sky walk.

I would request you to ask the chief engineer to have a visit of the area and examine the feasibility for the interchange facility.

With regards,

Yours sincerely,

(Dr. NAND KISHORE GARG)

Shri Mangu Singh
MD, DMRC
Delhi
