Dear Mangu Singh ji,

Construction of Metro Stations along Ring Road opposite Britania Industries Limited (near CNG Mega Station of IGL) is going on in full swing. I would like to draw your kind attention towards the Shakurpur Resettlement Colony, which is now known as Anandwas for the last so many years in all the departments of MCD and Delhi government. The name Anandwas is any as an important well known place i.e. Subhash Place District centre is part of this area and is frequented by thousands of the people daily. This will be one of the major station and all commuters coming from South Delhi will alight at this point to attend offices at District Centre, Subhash Place which is one of the biggest District Centres developed by DDA. As such for the convenience of the common people visiting this area, the name of this metro station should be Anandwas-Subhash place. Though the next stoppage of the metro will be Subhash Place but the proposed Anandwas Metro Station will be more closer to the Subhash Place District Centre and will save time and money of all the commuters if the station is name as Anandwas-Subhash Place.

The name of police station of this area is also Subhash Place and all government schools have been named as Anandwas.

A prompt and favourable reply in this regard is solicited.

With regards,

Yours sincerely,

(Nand Kishore Garg)

Shri Mangu Singh
MD, DMRC
