Subject: SW Drains in AC-16 Assembly Constituency, Trinagar.

Dear Srivastava ji,

Right from Madhuvan Chowk outer ring road to Nazafgarh drain two ^{major} measure SW drains are functioning known as Shakurpur drain and Kanhiya Nagar drain. 90% of these drains are now maintained by PWD. Last year in 2013 rainy season was very troublesome for the resident of Pitampura group of colonies. As you must be aware that most of the roads are taken up by the PWD from the MCD. I have been representing this assembly constituency from 1993 to 2003 and now again by the grace of God I am elected from this constituency. For the last 5 to 6 months I have identified bottleneck and the reasons for the failure of the system.

Shri Dinesh Kumar (Engineer in Chief of PWD) had sanctioned more than 2.5 crores for remodeling, desalting and modifying the system. Work has started also it was possible because Shri Dinesh Kumar had been active (EXN) in this area when I was parliamentary secretary. My suggestion is that some portion of these measure drains are still with MCD for no reasons at all. In the meeting with Shri Dinesh Kumar Ji, all engineers present in the meeting were agreed to my suggestion. And also North Delhi MCD was agreed to my view point.

Therefore, I request you to issue an office order to PWD to take over the portions which are still not with PWD so that water longing problems of this area must be solved without any confusion.

An immediate action is expected at your end as you are known to be an efficient officer.

With regards,

Yours sincerely,

(DR. NAND KISHORE GARG)

Shri S. K. Srivastava
Chief Secretary
Govt. of NCT of Delhi
