Subject :- Construction / Allotment of Remaining Nursery School Plot in the Colony.

Sir,

There is a Nursery School Plot of land measuring 1800 Square meter in this colony. Out of which 800 sq. meter of this plot has already been allotted long back to FLORA CONVENT SCHOOL. Nursery School Building has already been constructed and the school is functioning.

Remaining 1000 sq. metre of plot is still lying vacant. Residents are dumping mulba etc. in this plot and creating insanitary condition in the colony. There is no need of any more School in this colony as two schools are already working in this colony, namely St. Colombo Senior Secondary School and Flora Convent Nursery School.

It is kindly requested that this plot may be constructed into a fitness centre , Gym, Health Club , Library or any other Public utility useful for Residents /Senior Citizen of this colony by Delhi Development Authority. We have been regularly writing to D.D.A. about this plot but no action has been taken so far. Layout plan of the colony is enclosed. Awaiting an early action.

Thanking you,

Yours faithfully,
